All **new** Computer Towers supplied by PC Clinic, come with a 12 month **return to base\*** warranty, and are supplied with a certificate of authenticity – COA label on the side of the case. New laptops are supplied to us by our vendors, and carry a 12 month Manufacturer's Warranty, requiring the consumer to liaise with the manufacturer directly in the event of any hardware fault. Our refurbished machines, come with a 30-day (or greater), return to base repair/exchange warranty, unless otherwise specified. **We are not responsible for any third party repairs to any system supplied by PC Clinic. Whether it be another repair centre, manufacturer, or attempted repair by owner – in such cases, any remaining warranty would be void.**

\*This means that if your PC Tower malfunctions within the 12 month period from you purchasing it, then simply return it to us by post (which is payable by you), or deliver it to our shop and we will repair it free of charge if it is a hardware related issue – a physical malfunction of a component within the machine.

### **SOFTWARE:**

As there is an abundance of differing software packages out in the market place, giving a minefield of problems arising from their use. Whilst we appreciate that this is frustrating, we cannot be held responsible for any software, or software related issues that may arise with your pc. This includes - *viruses, malware/spyware, software compatibility issues or installation/un-installation issues.*

We cannot be held responsible for your choice of software and software combinations, their use, updates or any issues that arise from these. If we supply your software, and you install it yourself, then any issues that arise should be taken up with the software developer. In such cases, upon request we can look at these issues for you, but this service will incur a fee. Please bear in mind that we are only resellers of software, and we do not control the fundamental functioning or development of the software. If we install the software for you within our charges (or included with the sale a new pc), we check that the software has installed correctly and will run as per end user guidelines. Our liability ends at this point. Upon a serious issue will endeavour to contact the software developers for you on your behalf. This service is limited to a *reasonable* amount of time per issue for reasons of time and remuneration.
